2. The Contractor is advised that the location and/or elevation of electrical utilities, other systems, and other utility instruments, are unknown until the utility instruments are identified. This is the responsibility of the Contractor to identify the existence and location of all utility instruments and to inform the designer of their location.

3. The Contractor shall be responsible for the repair, replacement, or adjustment of all utility instruments prior to and after construction, and a record of all such repair, replacement, or adjustment shall be made available to the Designer. This includes the repair, replacement, or adjustment of all utility instruments that are not covered by this Agreement.

4. The Contractor shall be responsible for the repair, replacement, or adjustment of all utility instruments that are not covered by this Agreement. This includes the repair, replacement, or adjustment of all utility instruments that are not covered by this Agreement.

5. The Contractor shall be responsible for the repair, replacement, or adjustment of all utility instruments that are not covered by this Agreement. This includes the repair, replacement, or adjustment of all utility instruments that are not covered by this Agreement.

6. The Contractor shall be responsible for the repair, replacement, or adjustment of all utility instruments that are not covered by this Agreement. This includes the repair, replacement, or adjustment of all utility instruments that are not covered by this Agreement.

7. The Contractor shall be responsible for the repair, replacement, or adjustment of all utility instruments that are not covered by this Agreement. This includes the repair, replacement, or adjustment of all utility instruments that are not covered by this Agreement.

8. The Contractor shall be responsible for the repair, replacement, or adjustment of all utility instruments that are not covered by this Agreement. This includes the repair, replacement, or adjustment of all utility instruments that are not covered by this Agreement.

9. The Contractor shall be responsible for the repair, replacement, or adjustment of all utility instruments that are not covered by this Agreement. This includes the repair, replacement, or adjustment of all utility instruments that are not covered by this Agreement.

10. The Contractor shall be responsible for the repair, replacement, or adjustment of all utility instruments that are not covered by this Agreement. This includes the repair, replacement, or adjustment of all utility instruments that are not covered by this Agreement.

11. The Contractor shall be responsible for the repair, replacement, or adjustment of all utility instruments that are not covered by this Agreement. This includes the repair, replacement, or adjustment of all utility instruments that are not covered by this Agreement.

12. The Contractor shall be responsible for the repair, replacement, or adjustment of all utility instruments that are not covered by this Agreement. This includes the repair, replacement, or adjustment of all utility instruments that are not covered by this Agreement.

13. The Contractor shall be responsible for the repair, replacement, or adjustment of all utility instruments that are not covered by this Agreement. This includes the repair, replacement, or adjustment of all utility instruments that are not covered by this Agreement.

14. The Contractor shall be responsible for the repair, replacement, or adjustment of all utility instruments that are not covered by this Agreement. This includes the repair, replacement, or adjustment of all utility instruments that are not covered by this Agreement.

15. The Contractor shall be responsible for the repair, replacement, or adjustment of all utility instruments that are not covered by this Agreement. This includes the repair, replacement, or adjustment of all utility instruments that are not covered by this Agreement.

16. The Contractor shall be responsible for the repair, replacement, or adjustment of all utility instruments that are not covered by this Agreement. This includes the repair, replacement, or adjustment of all utility instruments that are not covered by this Agreement.

17. The Contractor shall be responsible for the repair, replacement, or adjustment of all utility instruments that are not covered by this Agreement. This includes the repair, replacement, or adjustment of all utility instruments that are not covered by this Agreement.

18. The Contractor shall be responsible for the repair, replacement, or adjustment of all utility instruments that are not covered by this Agreement. This includes the repair, replacement, or adjustment of all utility instruments that are not covered by this Agreement.

19. The Contractor shall be responsible for the repair, replacement, or adjustment of all utility instruments that are not covered by this Agreement. This includes the repair, replacement, or adjustment of all utility instruments that are not covered by this Agreement.

20. The Contractor shall be responsible for the repair, replacement, or adjustment of all utility instruments that are not covered by this Agreement. This includes the repair, replacement, or adjustment of all utility instruments that are not covered by this Agreement.
GENERAL SITE NOTES

1. The contractor shall review site plans and specifications at all times during construction of the new pump station.

2. The contractor shall review any and all project plans and specifications at all times during construction and at the end of each working day.

3. The contractor shall inspect the pump station and all associated work for conformance with the plans and specifications. The contractor shall promptly notify the engineer of any non-conformities or defects.
